

Veterinary Cardiology & Imaging Pty Ltd

A.B.N. 84 083 936 841

Cardiac/PKD Certification

Client: Anne Harvey Patient: Maestro Miss Floyd (Imp NZ)
Reg No. NZ007889QC07 Species: Feline Breed: Maine Coon
Sex: Female Colour: Brown Tortie Classic Tabby Date of Exam: 8/8/07
DOB: 19/9/2006

CERTIFICATION STATEMENT*

On echocardiographic assessment, there is no evidence of hypertrophic cardiomyopathy or congenital cardiac disease.

Echo parameters: LVIDD 16.4 mm, IVSD 3.2 mm, LVFWd 3.3 mm

Renal ultrasound assessment: On ultrasound examination, there is no evidence of polycystic kidney disease.

Sincerely,

Dr. Brad Gavaghan BVSc, FACVSc (cardio).

Specialist Veterinary Cardiologist

* Certification is recommended on an annual basis. Hypertrophic cardiomyopathy has a variable age onset and may be present within 12 months of a normal echocardiographic assessment.

Abbreviations
LVIDD = LV INTERNAL DIMENSION IN DIASTOLE; LVSD = LV INTERNAL DIMENSION IN DIASTOLE; IVSD = SEPTAL THICKNESS IN DIASTOLE; LVFWd = LV FREE WALL THICKNESS IN DIASTOLE; LA = LEFT ATRIUM; Ao = AORTA.
SEPARATION; FS = FRACTIONAL SHORTENING; IVSD = SEPTAL THICKNESS IN DIASTOLE; LVFWd = LV FREE WALL THICKNESS
